

STEP 1

You will need:

- Ribbon* (provided)
- Webbing (provided)
- Iron
- School Blazer
- Sewing needle and thread

STEP 2

The ribbon and webbing will need to be placed on the top of the School blazer pocket.

**STEP 3**

Take the piece of ribbon and fold it 1 cm either side. Place a stitch here to stop it from fraying.

**STEP 4**

Next take your webbing and cut it to size – you do not want this showing over the edges of the ribbon.

**Step 5**

Place the ribbon on top on the webbing. Then place a tea towel/cloth over the ribbon and webbing. This will stop the blazer from burning and also protect your iron.

**Step 6**

You may wish to add extra stitches at either end of the ribbon to make it extra secure.

***The ribbon in the pictures may be a different colour to the ribbon sent home.**
